PROFESSIONAL SUMMARY

Full-Stack Web Developer and STEM Educator with 3+ years of experience building scalable web applications and teaching programming, robotics, and AI to students across Egypt. Proficient in modern JavaScript frameworks (React, Next.js, Node.js), Python (Django), and database technologies (MongoDB). Certified Robotics Coach (FLL & LTU) with a strong record in competitive programming, academic leadership, and product development.

TECHNICAL SKILLS

Frontend: React, Next.js, Vite, Tailwind CSS, Bootstrap, Framer Motion, TypeScript, HTML5, CSS3

Backend: Node.js, Nest.js, Express.js, Django, GraphQL, Socket.IO, REST APIs

Databases: MongoDB, PostgreSQL / MySQL

Languages: JavaScript, TypeScript, Python, Dart

Tools & Platforms: Git, GitHub, Vercel, AWS (EC2), VS Code, Arduino, LEGO Spike / EV3 / WeDo

Soft Skills: Technical Team Leadership, Cross-Functional Communication, Time & Project Management, STEM Education

PROFESSIONAL EXPERIENCE

Software Engineer — RaySoftware Development

Feb 2026 – Present

Alexandria, Egypt

- Developed an AI-powered fashion application (MyDresser) enabling users to generate avatars and virtually try on clothing.
- Built the backend using Django (Python) and integrated with Dart-based mobile frontend.

Data Engineer

2025-2026

Souq Algomlah — Kuwait

- Designed and implemented data cleaning, structuring, and identification pipelines using external APIs.
- Delivered reliable, structured data to the application layer, improving downstream data quality.

Programming & Robotics Instructor — Techno Future Academy / Future Kids

2022 – 2026

Alexandria, Egypt

- Taught robotics (LEGO Spike, EV3, WeDo), Arduino, web development, and programming to 50+ students across Egypt.
- Certified Robotics Coach for FLL (FIRST LEGO League) and LTU competitions.

EDUCATION

Bachelor of Computer Science and Artificial Intelligence

2022 – 2026 (Expected)

Pharos University in Alexandria (PUA), Alexandria, Egypt

- GPA 3.0

CERTIFICATIONS & AWARDS

Full-Stack Web Development Diploma — Route IT Training Center

Jan 2024 – Apr 2025

Covered: Back-end (Node.js, Nest.js, MongoDB) · Front-end (React, Vite, Next.js)

Arab Olympiad for Artificial Intelligence — 3rd Place, Egypt Championship

2023

ICPC Honorable Mention — International Collegiate Programming Contest	Aug 2023
InnovEgypt Program — Innovation & Entrepreneurship Training	2023
Pharos University — Focused on startup ideation and entrepreneurship methodology.	
Software Development — The Open University	2023
6-hour course on engineering nature of software development.	
Managing Complexity — The Open University	2023
75-hour course covering systems thinking and effective management.	
UI Design — The Open University	2023
4-hour course on user interface design principles.	

SELECTED PROJECTS

WebCraft — SaaS Website Builder	2025 – 2026
web-craft-f.vercel.app	
- First SaaS web application allowing users to build websites using visual scratch-style blocks. - Using Next.js, Google Blockly	
MyDresser — AI Fashion App	2026
AI-powered app for avatar generation and virtual clothes try-on. Built with Django, Dart, JavaScript, and Python.	
NOON-Sprachdienst — Translation Agency Website	2025
proposal-noon.vercel.app	
Professional business website built with React Vite, Tailwind CSS, and TypeScript.	
E-Commerce Platform	2024
3assem0.github.io/e-commerce/	
Full-stack platform with React, Tailwind CSS, Vite, integrated payment gateways, and product filtering.	
Weather Smart App	2024
3assem0.github.io/Weather-smart-app/	
Responsive web app displaying real-time weather with dynamic UI updates and location search. Built with HTML, CSS, Bootstrap, and JavaScript.	
Social App	2024
github.com/3assem0/SocialApp	
Full-stack social media backend built with Node.js, MongoDB, and Express.	
Job Finder App	2024
github.com/3assem0/job-Finder-App	
Job board backend with real-time features using Node.js, Socket.IO, and GraphQL.	
Spiro Spates	2024
3assem0.github.io/spiro-spates/	
Interactive frontend project built with React Vite, Tailwind CSS, Framer Motion, and React Mouse Follower.	

LEADERSHIP & ORGANIZATIONS

Web Master — IEEE PUA RAS Branch 2026 – Present

Pharos University, Alexandria, Egypt

- Managing and developing the branch's web presence and digital infrastructure.

Head of Academic Web Development Track — PUA Hult Prize 2025 – Present

Pharos University, Alexandria, Egypt

- Leading technical education track focused on web development for Hult Prize participants.

Head of Frontend & Backend Tracks — Dream Team (Tech) 2025

- Mentored fellow students in real-world full-stack development skills and best practices.

PR Team Member — Dream Team (PR) 2025

- Contributed to a 40% increase in social media engagement through strategic campaigns and event planning.
